An Innovative Way to a Classic Window

Time and time again, we've proved that there is no replacement window company in the world like Renewal by Andersen. By working with the best people, utilizing a superior process, and installing exclusive products, not only do we provide solutions for new windows, we provide solutions for your new windows. That's our Signature Service.

From consultation to installation, Renewal by Andersen offers single-company accountability without sacrificing the expertise of a local business. Our integrated approach means we're stronger than any lone manufacturer, contractor, or distributor. At the same time, our retail network includes independent businesses, whose regional knowledge – from architecture to building codes – serves our customers like no other company in the industry.

Ongoing Innovation

From the beginning, the Andersen name has set the industry standard in construction techniques, installation, and technological innovations. As the exclusive window replacement division of Andersen, we are proud to carry this legacy forward. After years of research, rigorous testing, and exacting design, Renewal by Andersen is proud to take its largest leap yet: the next generation double-hung window.

← We're here to help you get the windows that feel most like home.

PERFECTING A CLASSIC

Timeless, elegant, simple, versatile – there's a reason double-hung windows are North America's first choice. But at Renewal by Andersen, we believe there's always room to push perfection a little further. Or a lot further.

With our next generation double-hung window, we've taken a beloved blueprint and catapulted it into the 21st century, creating **our most extraordinary, most beautiful, and highest performing double-hung window to date.** With its maximized visibility, one-handed operation, and structural improvements, we're proud, once again, to help set the industry standard in window construction and installation.

Transform the character of your home with a newly refined classic

Personalize with an extensive offering of colors, hardware, grille patterns, and more

48 low-maintenance color combinations – no scraping or repainting required

We listened!

Thanks to extensive testing, homeowner feedback, and continuous improvement, one of our most popular windows is now even better.

A LEGACY OF INNOVATION

As a division of Andersen Corporation, we have over a century of product development at our fingertips. Andersen got its start by manufacturing the first standard window frame kits, saving builders across a booming nation both time and money. Since then, the company has only gone forward and upward. At Renewal by Andersen, seeking feedback from our customers to make sure we're on the right track.

Our newly refined double-hung window is a new achievement in a lineage of hard work and exhaustive testing. We're proud to introduce our newest innovations.

Getting the Best for Your Home

As proud as we are of our innovations, every function, every tweak, every advanced detail was crafted with only one thing in mind: you. Combining beauty, strength, and performance with no detail overlooked, no dream unexplored – that's what you'd expect from a subsidiary of Andersen.

Twice the material strength of vinyl

Long-term durability with no sagging or warping

All the durability and beauty of natural wood

ESSENTIALLY EFFORTLESS

A beautiful window is only part of the equation. We believe that living with our windows should be as painless as having them professionally installed. We've taken steps to make sure that our double-hung window not only opens smoothly and allows for quick cleaning, but the overall operation is a breeze. With nothing overlooked, our double-hung window is as functional as it is beautiful.

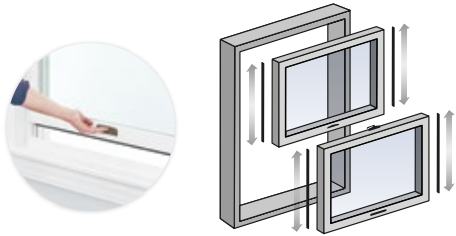

A smooth sill reduces build-up of dirt and debris

It's a breeze to operate – every homeowner's dream

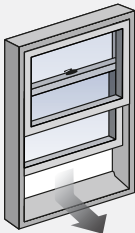

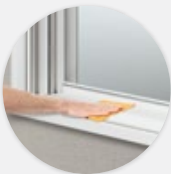

Easy to clean and low maintenance

Lift with Ease

Custom block and tackle balancers are optimized for smooth, effortless operation. It's like floating through the sky in a hot air balloon.

Cleaning is a Cinch

One-handed tilt latch makes cleaning easy, inside and out. The sill collects less debris and wipes clean effortlessly.

What are Renewal by Andersen® windows made of?

Every window that leaves our facility with your name on it is built from our exclusive Fibrex® material, a unique composite made from reclaimed wood fiber blended with a polymer. This gives your windows the strength, beauty, and durability of wood, as well as the low-maintenance features of vinyl.

20 Years and Counting

In 2015, we pulled and tested 10 windows installed in 1995. After 20 years of harsh winters and humid summers, each window passed our quality tests with flying colors.¹

Warrantied not to flake, rust, blister, peel, crack, pit, or corrode.² Fibrex material is simply a superior material to build a window from.

Color Choice

Our unique process fuses color to Fibrex material during manufacturing – including dark exteriors unavailable with most vinyl windows – creating long-lasting beauty with no need to paint or stain.²

Exceptional Material Comfort

Fibrex material is nearly 700 times more effective at blocking thermal transfer than aluminum, helping protect your family from the elements and your wallet from high energy bills.

Exceptional Beauty

Without warping, sagging, or cracking,² Fibrex material maintains its shape and structural integrity.

Innovative Materials

Fibrex material is twice as strong as vinyl – weathertight seals stay weathertight.

CHECK RAIL OPTIONS

BEYOND THE ORDINARY

Whether you are looking for a traditional aesthetic or a more modern flair, selecting the right check rail is one of the many little touches that add up to a beautiful, unique window built just for your home.

Traditional
Straight, perpendicular corners form a clean, classic look.

Modern
A beveled corner eliminates the hard edge of the traditional rail, providing a smoother, organic look.

HARDWARE OPTIONS

CREATIVITY COMES IN MANY COLORS

Well in Hand

Define your style with some of the smallest but most important details: locks, latches, and lifts. Not only does Renewal by Andersen hardware function exceptionally well, but it's molded with a durable finish. Available in a variety of styles and colors, we'll help you choose the hardware that's best for your home and your new windows.

MY Replacement Project: Matt Muenster

“Every home is unique, and mine is no exception. Plus, my level of expectations are about as high as any homeowner’s could be, so for that reason, Renewal by Andersen was an easy decision for me. Custom made and maintenance free, not to mention the execution of a very difficult and professional installation, made me a very happy new window owner.”

At Renewal by Andersen, we take pride in the outstanding people, exclusive products, and unique process that make our signature service the best in the industry. All we want is for you to be happy. Fortunately, we’re on the right track: in more than 95,000 Renewal by Andersen customer satisfaction surveys, our performance averages 4.7 out of 5 stars. That means over 94% of homeowners are very happy with the entirety of the replacement process. And we can only push ourselves forward from here.

Homeowners Ask...

Everything works perfectly when it’s brand new. How long will it be before my windows start to stick, slide, or need a push now and then? Our double-hung windows are built to last.⁷ In a recent study, we pulled 10 of our windows installed 20 years earlier and were thrilled to discover that they opened and closed just as easily as the day they’d been installed.⁸

Are these windows really that easy to clean? We know what a chore window cleaning can be, and we know that everything we can do to make it easier means cleaner, more beautiful windows. Our patent-pending, one-handed tilt latch makes window cleaning easier than ever. You might find yourself looking for an excuse to get the cleaning cloth and the window cleaner!

Design Quick Tips

- Take advantage of window color options to bring out the character of your home.
- Customize your project by choosing from multiple check rail and glass options.
- Use grilles and Estate™ hardware to maximize curb appeal.
- Don't forget to have fun. Once you define your dream windows, you can relax while the experts make it into a reality!

The process is easy.
